Monkey Has A Beautiful Voice

Sofia Gaspar

For _____, the BEST monkey

Monkey has a BEAUTIFUL voice.

And his voice can do many things.

He can use his
beautiful voice to
answer questions,
share ideas,
and communicate his
feelings.

It can sing his favourite songs when he feels happy.

It can make fun noises and celebrate when something exciting happens.

Monkey uses his voice to have really fun chats and tell cheeky jokes.

He can whisper
when something is
a secret
or it is quiet time.

His voice helps him connect with the people he loves.

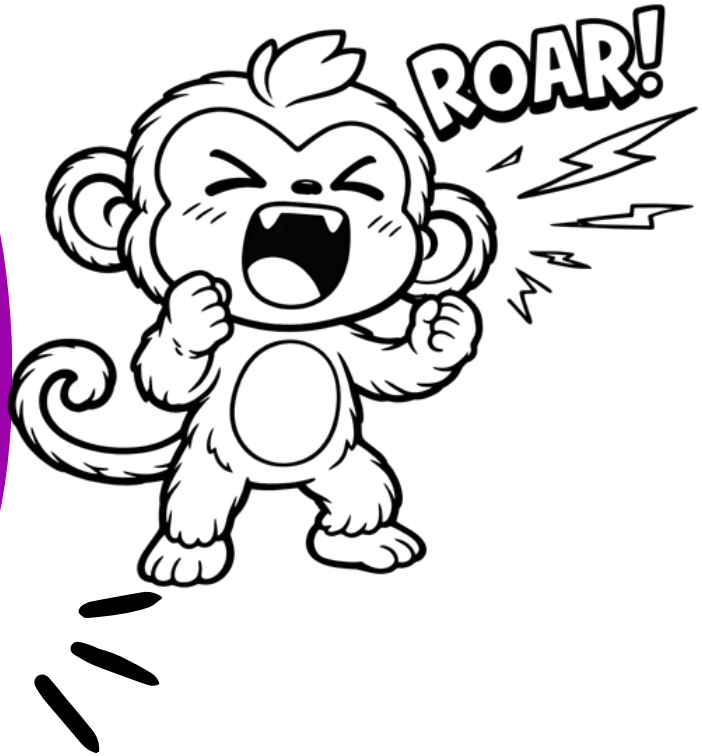

But sometimes his feelings get VERY BIG, and Monkey feels overwhelmed.

When Monkey's feelings get SO BIG, his voice gets BIGGER too...

And it comes out before he can stop it!

Afterwards, Monkey feels sad.

Monkey knows that shouting isn't kind...

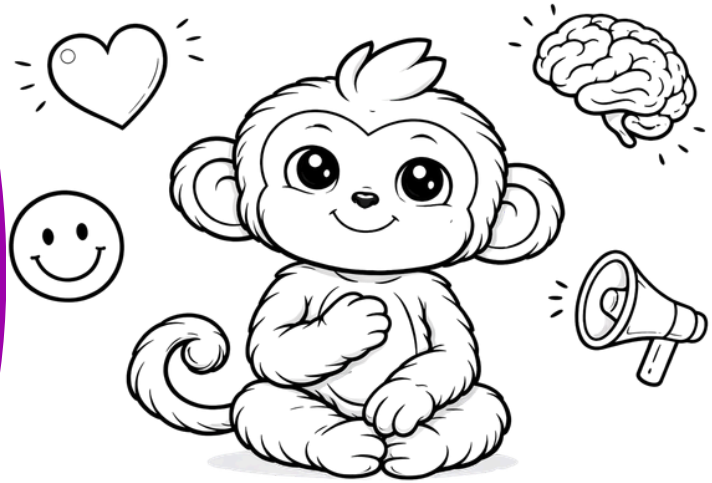

And he has a VERY BIG kind heart.

That's right, Monkey has lots of BIG things!

Big heart.
Big feelings.
Big voice.
Big brain.

But...
Monkey is still
little.

And he is still learning....

And that's OKAY!
